

## Two appreciation letters for DCA

In Afghanistan it is good practice among the district-level government to show its appreciation of effective NGO activities. This is done in a well-attended ceremony by handing over a special appreciation letter to the NGO involved. Recently, DCA received two such letters for its fruitful livestock health and production activities. One from the government in Logar (see picture), and another from the government in Parwan.

### Logar appreciation letter

“As the governor of Logar province and director of DAIL in Logar, we would like to offer this letter of appreciation of DCA’s successful and honest efforts to develop and coordinate the Kuchis’ livestock situation to Dr. Mir Islamuddin Fakhri. We wish him and DCA further success in relation to development and growth of its activities in the country.”

### Parwan appreciation letter

“As the governor of Parwan province and director of DAIL in Parwan, we would like to offer this letter of appreciation of DCA’s successful and honest efforts to develop and coordinate the Kuchis’ livestock situation to Dr. Sayed Agha, as to welcome Farmers Field Day. May God bless DCA with more success in relation to development and growth of its activities in the country.”
